ABOUT THE COLLECTION

Introducing the 2026 Collection: L'Artiste—A Celebration of Global Beauty and Craftsmanship.

Last summer, our designers immersed themselves in the rich cultural tapestry of Europe, collaborating closely with some of the region's most esteemed bridal retailers. This journey was more than research—it was an exploration of craftsmanship, art, and the many ways fashion merges with the world's creative heritage.

From the grand halls of historic museums to the vibrant streets where contemporary artists bring their visions to life, inspiration was everywhere. This deep connection with art—both classic and modern—led to the conception of our 2026 collection, L'Artiste, a tribute to the craftsmanship of women around the world.

Each dress in this collection is a masterpiece, reflecting the textures, tones, and emotions found in fine art. Whether inspired by the fluidity of impressionist brushstrokes, the precision of sculptural details, or the romanticism of Renaissance compositions, L'Artiste embodies the essence of beauty in all its forms.

Through this collection, we celebrate the craftsmanship of design, haute couture tailoring, and the individuality of the women who wear our dresses. L'Artiste is more than a collection—it is a tribute to timeless elegance and the creative spirit that defines the story of each bride.

The Charm of Flowers

In a whisper of colors that recall the tranquility of a dawn sky, the collection "The Charm of Flowers" unfolds like a visual poem where every detail becomes a declaration of love for elegance, femininity, and the serenity of a modern woman seeking the eternal and the sublime.

In a delicate aura blue that evokes the softness of a dream, the dresses flow like rivers of chiffon gliding over the skin like a warm breeze caressing the senses. This blue blends with the soft gold of amber yellow, a color that speaks of the sun at the end of the day, of the warmth of an embrace, adding a warm light to the freshness of the palette.

Like a sigh, petal pink settles on the fabrics, intertwining with the most delicate embroideries, like flowers blooming to the rhythm of an invisible wind that carries with it the promise of eternal love. Finally, antique white appears as a tribute to the past, to dreams that never stop shining, to what has always been beautiful and true, a white that speaks not only of purity but of stories woven with threads of nostalgia.

The fabrics in this collection are like a dance, like the gentle movement of a bride carried away by the magic of her special day. The chiffon, light and ethereal, glides gracefully, covering the body with a softness that can only be compared to the touch of a breeze on the skin. The transparency of the tulle adds an air of mystery, revealing the delicacy of the floral embroideries that, in their apparent fragility, tell love stories that transcend generations.

Hand-embroidered with artisanal precision, it entwines around the bodies like a memory of times past, but with a vibrant energy that makes it more alive than ever, infusing it with a unique essence, as if each dress tells a story just for the woman who wears it. A touch of magic found in every stitch, in every curve, in every meticulously crafted detail, creating a piece that is not just worn, but lived.

BY LOLEIRO

ABOUT THE BRAND

BY LOLEIRO
HATS & HEADPIECES

The Tenerife Moda designer, Marisa Velázquez, whose brand BY LOLEIRO is part of the Tenerife Moda collective, infuses her creations with the passion for craftsmanship inherited from the matriarchs of her family. At By Loleiro, unique pieces that make a difference have been designed every day for 10 years. A decade of blending craftsmanship with millinery and jewelry specialized in bridal and guest accessories, creating all kinds of complements.

Each piece is uniquely and artisanally crafted in the brand's atelier in Santa Cruz de Tenerife, ensuring an excellent quality finish for every product.

After years of training and technical refinement with other professionals in the hat-making and accessories industry, he opened the doors of his First Atelier in 2014 with the aim of reviving the hat-making ateliers of yesteryear. In his headpieces, there is always a very important dose of sophistication and elegance, always trying not to be the "anodyne" accessory, but the center around which a look revolves.

We believe in the prominence of hat-making or jewelry accessories when it comes to completing an outfit. Our clients have always bet on distinguishing themselves by using exclusive pieces that undoubtedly make a difference. For this reason, we have always worked on the artisanal creation of 'jewel bags', as well as epaulettes or belts made of stones and feathers.

BY LOLEIRO

ABOUT THE COLLECTION

BY LOLEIRO
HATS & HEADPIECES

The new collection by By Loleiro is inspired by French romanticism, exploring the duality between light and darkness, for day and night, with femininity as the common thread. 'Dreams of being a muse, unaware that she collects more verses than the Moon. Longing to be a poem, innocent of the fact that she is the poetry'.

In its haute couture pieces, due to the complexity of its artisanal craftsmanship, the brand showcases its refined technique by sculpting different feathers one by one to create delicate wide-brimmed hats, canotiers, and headpieces, pieces that seem to flow from the head to the dress in different shapes, thus creating sophisticated party or guest looks.

The brand also explores goldsmithing by melting jewelry pieces, earrings, headbands, or hairpins made of brass plated in gold or silver, with inlays of marcasites, zirconias, and Swarovski crystals that emit their light.

Brides have a special prominence with headpieces and tiaras, made by mixing delicate vegetal shapes and textures that form overlapping volumes.

The designer brings back the classic veil of a romantic bride, reinterpreting it with delicate embroidery on tulle or French lace adorned with flowers made of natural feathers.

The color palette explores different pastel shades, ranging from the luminosity of pink, green, nude, or off-white tones to the intensity of garnet, burgundy, or brown.

CLAUDIO DI MARI

ABOUT THE BRAND

Claudio Di Mari is a bridal dress brand that combines tradition and innovation, starting from haute couture and meticulousness in every detail. The designer's greatest source of inspiration is Sicily, in its landscapes, atmospheres, and architectures.

He dresses a woman who represents his land: sweet and welcoming, but at the same time strong and sensual. In every detail, he reflects his vision, from the lace, completely conceived and designed by him, made in Italy, to the silhouettes, some intended to highlight the sinuosity of women and others to give them an ethereal appearance.

ABOUT THE COLLECTION

"Angelica," the name of the 2026 collection, represents the Sicilian woman, care, comfort, and hospitality. The woman to whom one dedicates life, whose values are represented in attention to detail, innate and comforting haute couture. Femininity that unfolds in multiple ways: the softness of Chantilly lace, the liveliness of rebrodé lace, the ductility of macramé merges with the intransigence of taffeta, the volatility of ruffles, and the protection of external structures that never imprison but protect. A union from which there is no escape, the desire to blend two existences in the service of a life together, complex and simple like two gazes that meet and two hands that intertwine to never separate again.

ABOUT THE COLLECTION

Amazigh Collection – Brides with a Nomadic Soul

Inspired by the nomadic Berber peoples of North Africa, the Amazigh collection celebrates the deep connection to the land, tradition and freedom of the native peoples of this region. Each garment in this collection is a tribute to the timeless beauty of nomadic cultures, which have known how to bring elegance with simplicity, without sacrificing sophistication.

Amazigh dresses are designed with an artisanal base that highlights the richness of embroidery and textures. Fabrics such as chiffon, mohair and crepe are intertwined with metallic threads and handmade details, creating a sense of modernity that keeps the traditional essence alive. The delicate embroidery, inspired by the geometric patterns and shapes of nature, tells ancestral stories that translate into a unique elegance for each bride.

Colour, always a symbol of identity and power, is incorporated in a subtle and harmonious way. From terracotta hues that evoke desert sunsets to the deep black of the night sky, pops of color offer a new take on the modern bride, who dares to break with convention while respecting the cultural legacy that inspires her.

At Amazigh, each dress is a unique piece that fuses the old and the new, the traditional and the contemporary, allowing each bride to feel part of a story that crosses generations and borders.

MARCO & MARIA

ABOUT THE COLLECTION

"Alma" 2026 Marco&Maria collection. "Just as the sun colors flowers, art colors life"

Inspiration: Our new bridal and party collection is born from the fascination with the work of Lawrence Alma-Tadema, a master of light, colour and detail. Its time-worn marbles, flowery gardens and ethereal compositions have led us to imagine a universe where delicacy and splendour are intertwined.

Color palette: The colours of the collection are inspired by Alma-Tadema's ranges of luminous marbles and glazed ceramics: pearly whites, golden ivories, powdery pinks and soft light blues, along with touches of aqua green.

Silhouettes and volumes: The silhouettes evoke the fluidity of tunics, with light drapes, ethereal draping and enveloping lines that enhance femininity. Strategic volumes in sleeves, skirts and capes add drama, in a modern reinterpretation of classicism.

Fabrics and textures: The collection combines subtle and sophisticated textures. Lace and floral embroidery inspired by the gardens and vegetation that Alma-Tadema captured in his paintings. Tulle, taffeta and pleated chiffon reminiscent of the sculptural folds of Antiquity.

Details and finishes: Grosgrain bows and ribbons add a nostalgic and romantic touch, while inlays and embroidery add a luminous and painterly dimension to each design.

Spirit of the Collection: Each dress is a journey between the past and the present, where Alma-Tadema's pictorial delicacy contributes to a tribute to timeless beauty, romanticism and femininity elevated to its maximum expression.

ABOUT THE COLLECTION MARIANO ∩ MORENO

Mariano Moreno's new 2026 bridal collection, titled "I DO", fuses timeless elegance with Barcelona's architecture, paying homage to both the legacy of Antoni Gaudí and his centenary, as well as the city that will be the World Capital of Architecture in 2026.

The collection is inspired by architecture, decorative arts and materiality, merging these elements with haute couture to create unique bridal pieces. Based on the works of Gaudí and the city's iconic buildings, such as Casa Batlló and the Sagrada Família, "I DO" reinterprets his organic forms, use of materials and ornamental richness that define his style. Through sculptural volumes, precise cuts and artisanal details, each design captures the majesty of Catalan modernism, transforming the essence of its architecture into wedding dresses that celebrate innovation and beauty.

The collaboration with the jeweler, artist and artisan Areta Mata has further enriched the collection, with exclusive pieces that enhance some looks. Their creations, made with agates, bismuth, treated metals and a careful selection of minerals and precious stones that evoke the construction process, provide a unique character. Every detail of these pieces reinforces the connection between fashion, architecture and art that defines "I DO".

MARTA MARTÍ

ABOUT THE BRAND

MARTA MARTÍ

Designer Marta Martí created her fashion brand 10 years ago in Barcelona, her hometown. Throughout this decade, the brand has been committed to slow fashion, a sustainable fashion where a passion for craftsmanship, tailoring, local production and details have become its own DNA.

"I think we have a duty to continue making and betting on slow fashion, a fashion that treats and works fabrics in a sustainable and artisanal way. It is not so important to sign up for all trends, but to reach them in a respectful way."

Currently, Marta Martí has her own showroom and workshop in the centre of Barcelona, where she designs and makes custom-made wedding dresses and guest dresses. In the collections, you can make changes, combinations, choose fabrics and finishes to personalize the final dress with the advice of the team. STUDIO designs can be purchased in the firm's store by size.

The creative director, together with her workshop team, explores artisanal territories, researching and innovating to create 100% her own fabrics and betting on feminine and contemporary designs, based on comfortable patterns that flatter each body.

MARTA MARTÍ

ABOUT THE COLLECTION

MARTA MARTÍ

Marta Martí celebrates the 10th anniversary of her firm with a bridal collection marked and inspired by the High Tide - Marea Alta, to take a look at her favourite landscape and understand the reasons why the sea has been her great source of inspiration for years.

If you had to explain the starting point and inspiration for the new bridal collection by designer Marta Martí, you would have to start with the beginning of the history of the firm.

From her delicate and romantic point of view, Marta has had the sea as one of her favorite landscapes since she was a child. Its sound, the movement of the tides according to the time of day or the solar and lunar incidence and, above all, its natural beauty, have marked the new My Universe bridal collection baptized as Marea Alta.

A proposal of 10 designs that seek the balance between freedom and fantasy with a clear inspiration in the ocean that seeks to pay tribute to its source of inspiration throughout its collection. Silks, organzas and natural linens are the most prominent fabrics, in plain or handmade pleated format as a trademark of the house since its inception, taking on a special strength in this collection the asymmetries in all its versions. The transparent air organza is the great novelty and at the same time the common thread between the dresses and their accessories whether in veil, overskirt or flower format, another constant sign of identity of the firm. The most groundbreaking proposal is the introduction of the color silver in dresses representing that light of the sea when it reflects the sun.

The symbolism is so strong that throughout these 10 years she has baptized some of her past collections and dresses with references to the sea. Until today, which, with the celebration of this first decade, dedicates the Marea Alta collection to her and presents it for the first time in a fashion show of the firm during the Barcelona Bridal Fashion Week.

OGADENIA COUTURE

ABOUT THE BRAND & COLLECTION

On the occasion of the 20th anniversary, the "Chicago Made in Spain" collection is committed to bringing together the key elements of the firm; that unite history, tradition and modernity.

Inspiration and Philosophy

The 1920s marked a before and after in the world of fashion. At that time, flappers were established as icons of freedom and the fight for gender equality. Inspired by that energy and spirit of change, in "Chicago Made in Spain" we wanted to capture the conviction that fashion is a powerful vehicle to express freedom and the feminine revolution that is still in force today.

The Fusion of Styles and Traditions

The collection is the result of the encounter between the avant-garde aesthetics of flappers and the rich Spanish artisanal heritage.

- **The Manila Shawl:** We remember how, in the 20s in Chicago, the embroidered silks that came from Manila inspired the use of the shawl, a symbol of elegance and sophistication. Today, in Spain, this garment is still made by hand, with embroidery and fringes that enhance the tradition and mastery of our expert hands, as is the case of the Foronda thugs in Seville.
- **Artisanal Techniques:** Artisanal works in women's clothing, such as silk embroidery, lace, embroidery with rhinestones, fringes and feathers, find their echo in our proposal. We especially highlight "El Calado de Ingenio", a century-old artisanal work introduced in the Canary Islands in the 20s, which this year has reached record figures among our customers. This ancestral technique brings an unmistakable touch of distinction and underlines the ability of our craftsmanship to merge with contemporary and demanding designs.

OGADENIA COUTURE

ABOUT THE BRAND & COLLECTION

Commitment to Excellence

At OGADENIA Couture, every garment tells a story. Our commitment is reflected in the use of sophisticated, airy and glamorous fabrics that enhance the quality of each design:

- Chiffon embroidered with floral motifs and Tules hand-embroidered in rhinestones.
- Heavy cadi and vintage satin that define a woman's curves in a soft and sensual way.
- Silk muslins and silk tulle that give a touch of lightness and glamour.
- The unique double-sided tussord, which adds structure and elegance.

These carefully selected materials are the basis of a collection that celebrates innovation without sacrificing our roots. Each creation reflects the history of the modern woman, faithful to her origins and proud of her culture.

With "Chicago Made in Spain" we reaffirm our commitment to excellence and distinction in the world of fashion. Proud of our ancestors and of an artisanal culture that is constantly reinventing itself, we look towards a more sustainable and enriching future. Each garment is a tribute to freedom, the women's revolution and the passion for quality, which has defined OGADENIA Couture during these 20 years.

"Hebras de Alisios": Oswaldo Machín and the Volcanic Elegance of Lanzarote

Oswaldo Machín, renowned Canarian designer, presents "Hebras de Alisios", his captivating 2026 bridal collection, a tribute to the volcanic beauty of his native island, Lanzarote. This collection is an ode to the feminine silhouette, where experimentation with patterns and fabrics merges with inspiration in the island's landscape and wind.

"Hebras de Alisios": captures the essence of Lanzarote, from its pure architectural lines to the fluidity of the trade wind. The collection reflects the volcanic texture in 3D fabrics, the luminosity in structured dresses, but with a light appearance and the strength of the landscape in fabrics with volumes. Each design is a sensory journey across the island, where trade winds and white light intertwine.

The main necklines, such as the strapless, V, heart and round raised, are combined with straight skirts in fabrics such as crepe georgette, chiffon, lace and embroidered fantasy tulle, providing elegance and fluidity. The brand's star model is reinvented with crystal embroidered lace, while, for the traditional bride, princess-cut skirts with draped bodices and fantasy lace are presented, fusing current trends with the brand's signature style.

In addition, within the selection of fabrics, we continue to work with Canarian craftsmanship, incorporating traditional fretwork in several proposals of the collection, adding a touch of authenticity and tradition. ABOUT THE COLLECTION SERINA BRIDAL

"Ethereal Nature"

"Ethereal Nature" is a design concept that brings to life light and fantastical dresses, born from the mystery and harmony of nature. Drawing inspiration from elements such as forests, oceans, wind, and flowers, this bridal collection incorporates delicate materials, flowing silhouettes, and organic details to offer a natural, elegant, and deeply environment-connected proposal.

In the Forest theme – Spirit of the Forest, the focus is on embroidery and lace with leaf and flower motifs, airy tulle and organza that evoke floating mist, and beading and sequins that recall sunlight filtering through the trees.

Ocean – Whisper of the Sea is represented through pleats and drapes that mimic waves, pearl and shell embellishments that add a natural shimmer, and a palette of pale aqua and bluish-gray that suggests ocean depths.

For the Blooming theme – Blessing of the Flowers, 3D floral lace and embroidery dominate, along with soft, romantic prints and vintage botanical lace that conveys classic beauty.

Finally, Breeze – Dance of Wind and Light comes to life through light fabrics like organza, ruffles and asymmetric layers that create movement, and simple silhouettes that enhance lightness.

The color palette includes pure white, ivory, champagne beige, pale blue, grayish green, soft pink, and lavender—evoking different aspects of nature such as earth, sea, wind, and flowers.

The bridal gowns in the "Ethereal Nature" collection are designed with the idea of beginning a new journey in life, celebrating union with a dress that harmonizes with the beauty of the earth. Like a forest fairy, a sea goddess, or a queen surrounded by blossoms, the bride wears not just a dress, but a creation imbued with the very energy of nature.
